

# What is Clockwise?

- An add-on to your Google or Outlook calendar to organize your schedule
- Moves events in calendars automatically to create focus time
- Works in teams to synchronize every member's schedule
- AI integration – analyzes habits and moves your schedule to revolve around those habits

# What Problems Does Clockwise Solve?

Fragmented schedule

Manual schedule reorganization

Constant rescheduling due to team availability issues

Overbooked/double booked time slots

# How Does Clockwise Work?

- **Connect:** Link Clockwise to existing Google or Outlook calendar
- **Define:** Tell AI your preferences (like wanting 1 hour of lunch, 1 hour of flex time, etc...)
- **Sit Back:** Clockwise runs in background of your calendar and moves meetings, appointments, or other duties while prioritizing preferences.

A desk calendar with budget stickers. The calendar is a grid with days of the week (MON to SUN) and dates (1 to 31). Several budget stickers are placed on the calendar: an orange sticker for \$150 on Monday, a green sticker for 3300 on Wednesday, a red sticker for 1800 on Tuesday, a blue sticker for 4400 on Thursday, an orange sticker for \$500 on Friday, a blue sticker for \$250 on Wednesday, and an orange sticker for \$500 on Friday. The calendar is on a wooden desk with a pen, glasses, and a small potted plant nearby.

MON	TUE	WED	THU	FRI	SAT	SUN
Budget \$150	1	Budget 3300	3	4	5	
8	8	9	10	Budget \$500	12	
13	14	Budget \$250	17	18	19	
20	21	22	24	Budget \$500	26	
27	28	29	31			

# How Can a Small Business Use Clockwise?

## The Bakery (Order Tracking):

- **Specific Use:** The owner blocks "Kitchen Time" in the early morning. Clockwise ensures no vendor meetings are scheduled during those high-intensity baking hours.

## Home Remodeling Company

- **Specific Use:** A project manager uses it to coordinate with subcontractors. The AI finds the one hour where the plumber, electrician, and foreman are all available without manual emailing.

## Gym Manager:

- **Specific Use:** A head trainer marks staff check-ins as "Flexible." Clockwise moves them to late morning when the gym is quietest, keeping the peak early-bird hours open for clients.
